PROFESSIONAL SUMMARY

Motivated BCA graduate with hands-on experience in SQL, Excel, and Power BI. Skilled in data cleaning, dashboard creation, DAX measures, and healthcare analytics. Developed an interactive diabetic patient readmission dashboard to identify high-risk patient groups and generate business insights. Seeking an entry-level Data Analyst or Power BI role.

PROJECT

Healthcare Analytics: Diabetic Patient Readmission Dashboard

Tools: SQL, Excel, Power BI, DAX

- Cleaned and transformed healthcare data using Excel
- Imported and analyzed patient data using SQL queries
- Created KPIs including readmission rate and high-risk patient analysis
- Built an interactive Power BI dashboard with slicers and insights
- Identified older patients as highest readmission-risk group
- Used storytelling visuals to support healthcare decision-making

TECHNICAL SKILLS

- SQL (MySQL Workbench)
- Power BI
- Microsoft Excel
- Data Cleaning & Transformation
- DAX Measures
- Dashboard Development
- Data Visualization
- Basic Python

EDUCATION

Bachelor of Computer Applications (BCA)

Gossner College | 2022 – 2025

SOFT SKILLS

Analytical Thinking | Problem Solving | Communication | Teamwork
